Re: Water Tower Painting Project

Dear Customers:

The District has awarded a contract for the painting of the water tower adjacent to your property. Starting early next week, our contractor will start installing scaffolding so that when the actual construction gets underway, the entire tower will be encapsulated to control dust and paint.

The actual work is due to begin around April 1 and should be completed within 90 days. Hopefully, the weather will cooperate and allow us to finish the project earlier.

Construction activity will be limited to normal working hours. Because the tank will be offline during the actual work, you may notice a slight decrease in water pressure. By getting an early start on this project, we should have the tower back in service by the time summer begins and the gardening season gets underway.

If you have any questions, please feel free to call me anytime at 783-5494. The District's telephone is answered 24 hours a day seven days a week.

Sincerely,

Henry Meyer
Manager
